FOR IMMEDIATE RELEASE

## Greater Vancouver housing market trends near long-term averages as spring market approaches

**VANCOUVER, B.C. – March 2, 2012** – Closer alignment between home buyer and seller activity helped bring greater balance to the Greater Vancouver housing market in February.

The Real Estate Board of Greater Vancouver (REBGV) reports that residential property sales in Greater Vancouver reached 2,545 on the MLS® system in February 2012. This represents a 61.4 per cent increase compared to the 1,577 sales recorded in January 2012, a decline of 17.8 per cent compared to the 3,097 sales in February 2011 and a 2.9 per cent increase from the 2,473 home sales in February 2010.

February sales in Greater Vancouver were the third lowest February total in the region since 2002, though only 151 sales below the 10-year average.

“With a sales-to-active-listings ratio of over 18 per cent, we see fairly balanced conditions in our marketplace as we move into the traditionally busier spring season,” Rosario Setticasì, REBGV president said.

New listings for detached, attached and apartment properties in Greater Vancouver totalled 5,552 in February 2012. This represents a 2.5 per cent decline compared to February 2011 when 5,693 properties were listed, and a 3.5 per cent decline compared to January 2012 when 5,756 homes were added to the MLS® in Greater Vancouver.

Last month’s new listing count was the second highest February total in Greater Vancouver since 1996.

At 14,055, the total number of residential property listings on the MLS® increased 12 per cent in February compared to last month and increased 17.9 per cent from this time last year.

“Region-wide we’ve seen relative stability in home prices over the last six months, but it’s important to do your homework and consult your REALTOR® because pricing can vary considerably depending on the neighbourhood and property type,” Setticasì said.

The MLS® HPI benchmark price for all residential properties in Greater Vancouver currently sits at \$670,900, up 6 per cent compared to February 2011 and an increase of 0.9 per cent compared to January 2012. The benchmark price for all residential properties in the Lower Mainland is \$601,300, an increase of 5.5 per cent compared to February 2011.

Sales of detached properties on the MLS® in February 2012 reached 1,101, a decline of 21.5 per cent from the 1,402 detached sales recorded in February 2011, and a 12 per cent increase from the 983 units sold in February 2010. The benchmark price for detached properties increased 10.5 per cent from February 2011 to \$1,042,900.

Sales of apartment properties reached 1,020 in February 2012, a decline of 15.4 per cent compared to the 1,206 sales in February 2011, and a decrease of 5 per cent compared to the 1,074 sales in February 2010. The benchmark price of an apartment property increased 2.8 per cent from February 2011 to \$373,300.

Townhome property sales in February 2012 totalled 424, a decline of 13.3 per cent compared to the 489 sales in February 2011, and a 1.9 per cent increase from the 416 townhome properties sold in February 2010. The benchmark price of a townhome unit increased 0.7 per cent between February 2011 and 2012 to \$472,800.

-30-

The real estate industry is a key economic driver in British Columbia. In 2011, 32,390 homes changed ownership in the Board’s area, generating \$1.36 billion in spin-off activity and 9,069 jobs. The total dollar value of residential sales transacted through the MLS® system in Greater Vancouver totalled \$25 billion in 2011. The Real Estate Board of Greater Vancouver is an association representing 11,000 REALTORS® and their companies. The Board provides a variety of member services, including the Multiple Listing Service®. For more information on real estate, statistics, and buying or selling a home, contact a local REALTOR® or visit [www.rebgv.org](http://www.rebgv.org).

**HOW TO READ THE TABLE:**

**BENCHMARK PRICE:** Estimated sale price of a benchmark property. Benchmarks represent a typical property within each market.

**PRICE INDEX:** Index numbers estimate the percentage change in price on typical and constant quality properties over time. All figures are based on past sales.

In January 2005, the indexes are set to 100

Key: \*\* = Sales sample too small; Price information not reported.
